NEW MICROFORM READERS!

New microform readers have recently been received by both the Norris Library (Room 531) and Vanier Library (Room 303). Regular microform users and curious onlookers are welcome to stop by and make use of this up-to-date equipment.

RENOVATIONS IN THE SCIENCE AND ENGINEERING LIBRARY

The Science and Engineering Library (SGW) has undergone a complete renovation which is definitely expected to improve the atmosphere for reading and study.

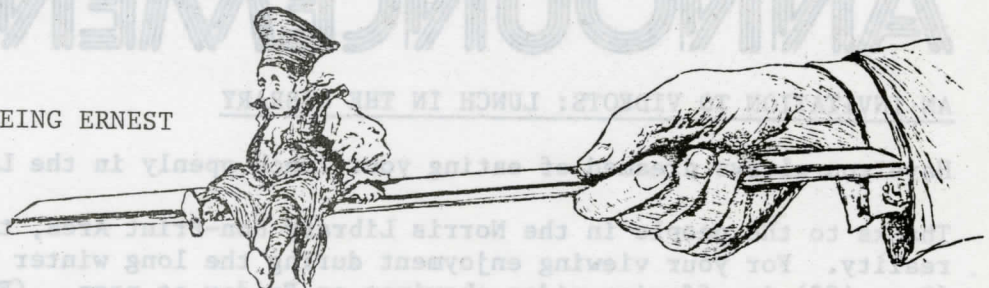

COMPUTER REFERENCE MANUALS NOW ON PERMANENT RESERVE

The Drummond Science Library and the Science and Engineering Library wish to announce that a considerable number of computer reference manuals from Control Data Corporation and Concordia University's Computer Centre are now on permanent reserve. The listing can be found in the Department of Computer Science section of the reserves list in each library. For further information contact Lee Harris, Computer Science Selection/Reference Librarian at 879-8071.

A CULTURAL DEVELOPMENT POLICY FOR QUEBEC

The English version of this much-publicized document is now available in the Government Publications and Microforms Room, Norris Library. The work (also available in French) is in two volumes, as follows:

Volume I: A general view: the culture under consideration.

Volume II: The three aspects of the policy: ways of life, creative activity, education.

For more information phone: 879-4275

FROM THE DEPARTMENT OF INDUSTRY, TRADE, AND COMMERCE

The Government Publications and Microforms Room (Norris Library) has recently acquired the REPORTS OF THE TECHNOLOGICAL INNOVATION STUDIES PROGRAM. The objective of the program is to provide the Department of Industry, Trade and Commerce with information on technological innovation needed to promote the performance of Canadian industry.

LIBRARY INSTRUCTION

SCIENCE AND ENGINEERING FACULTY: HAVE YOUR STUDENTS BEEN SUCCESSFUL IN FINDING NEEDED LIBRARY MATERIAL?

If not, they could probably benefit from a seminar in library use, designed specifically for students in your subject area. To supplement these seminars, the librarians of the Science and Engineering Library have produced a 5 minute slide-tape presentation on finding research material through the Library card catalogue. Seminars can be arranged by contacting your subject librarian:

Lee Harris - Computer Science 879-8071

- Electrical Engineering

Kay Hobbs - Chemistry 879-4185

- Geology

Zuzana Jirkovsky - Engineering (Building, Civil, 879-4186
General, Mechanical)

Ruth Rohrlick - Mathematics 482-0320, local 337

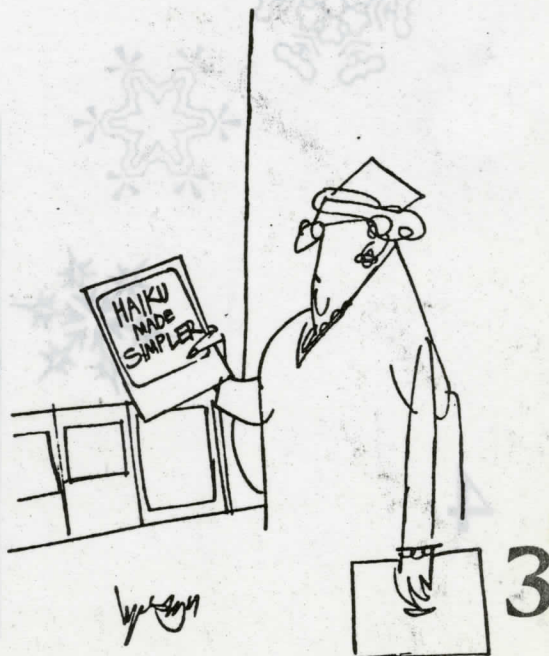

- Physics

Sharon Segall - Biology 879-4511

FROM THE ACQUISITIONS DEPARTMENT

A request to University staff who have occasion to order personal copies of books directly from publishers and suppliers: please specify in your letter/order a shipping and invoicing address. At present, many of these books are being directed by the publishers and suppliers to the Library with no order information noted. Re-routing of them to the person who requested them is delayed until we verify that it is not a library order, and then check back with the supplier to determine exactly whose order it was. Personal copies of books will be received much more promptly if the shipping and invoicing address is spelled out in the letter/orders.
